PROCEEDINGS OF THE GOVERNMENT OF MYSORE.

READ—

Letter No. 182, dated 22nd August 1950, from the Director of Industries and Commerce and Government Museum, forwarding the report on the working of the Government Museum for the year ending 31st March 1950.

ORDER No. 4884-8—MUS. 2-50-2, DATED BANGALORE,
THE 18TH OCTOBER 1950.

Recorded.

Museum Advisory Committee.—It is noted with pleasure that the Chairman of the Museum Advisory Committee continued to take an active interest in the Institution during the year under report. Though there were no meetings of the Committee during the year, he visited the Institution on a number of occasions and reviewed the progress made by the Museum in its various branches of work and offered helpful instructions for its improvement, in consultation with the Members of the Committee. Government would be glad if regular meetings of the Committee could be held occasionally to review the working of the Institution.

Galleries.—Arrangements for the introduction of a uniform background for display of specimens and the gradual replacement of the deteriorated specimens of the Natural History Section are reported to be progressing steadily. This work should be expedited and completed early.

Archaeology.—Arrangements may also be made early to acquire the isolated pieces of ancient sculpture pertaining to the periods of Ganga and Hoysala Dynasties, which are reported to be available at Halebid and other places in the State.

Visitors.—The Museum attracted as usual a large number of visitors, including 6,745 students. The total

069.09(5454)
M...

7138

number of visitors during the period of nine months under report was 234,598 as against 494,437 in the previous twelve months.

The working of the Institution was generally satisfactory.

L. MUNISWAMY,
*Secretary to Government,
 Local Self-Government Department.*

To—The Director of Industries and Commerce in Mysore and
 Chairman, Government Museum, Bangalore.

The Director of Printing and Stationery, Bangalore.

The other Heads of Departments.

REPORT ON THE WORKING OF THE MYSORE GOVERNMENT MUSEUM, BANGALORE, FOR THE PERIOD ENDING 31st MARCH 1950.

Museum Advisory Committee.—The Chairman visited the Institution on a number of occasions to review the progress made in the different sections and offered helpful instructions for the improvement of the Institution. As there was no meeting of the Museum Advisory Committee during the period under report, the members of the Committee were consulted on all matters arising from time to time regarding the acquisition of specimens pertaining to their sections and their display.

Galleries.—The introduction of a uniform background for the specimens commenced during the year 1947-48, to improve the general appearance of the galleries is making steady progress. The gradual elimination of the deteriorated specimens of the Natural History section is being continued and at the same time arrangements are also being made to acquire fresh specimens to replace the old ones removed from the galleries. A total number of 154 specimens have been acquired and a descriptive list of the same is furnished in Appendix 'A'.

Photographs of some of the important exhibits such as sculptures and a collection of typical set of arms, that are in the Museum, have been taken for the preparation of half-tone blocks for publication in the annual report of 1948-49.

In order to develop a photographic section in the Museum to expand the educational activities by means of photographs and lantern slides of groups of exhibits displayed in the various sections, a camera was acquired during the year. Steps will be taken in this regard as soon as the permanent Artist of the Museum, who has been deputed to Government Brass Works, Nagamangala, is reverted.

Geology.—The attempts made for the acquisition of a complete set of specimens illustrating the several stages in the extraction of gold at the Bellara Gold Mines, Tumkur District, is being pursued.

Zoology.—A specimen of a snake, which was collected from around Bangalore, has been preserved as a spirit specimen for the reptile gallery. The replacement of deteriorated specimens with suitable fresh ones in the Natural History section has improved the general appearance of the gallery to a great extent. Under this scheme steps have been taken to acquire some more specimens of mammals, *i.e.*, Hyaena and an Elephant cub mounted entire as Museum trophies. The renewal of the deteriorated specimens in the bird gallery is engaging attention and this could only be done gradually as and when fresh skins of specimens of the required types become available.

Archæology.—Several isolated pieces of ancient sculpture of good workmanship, pertaining to the periods of Ganga and Hoysala periods, exposed to sun and rain in many places of the State, *viz.*, Halebid, Hassan District; Begur, Bangalore District; Sosale and Talkad, Mysore District and in the Department of Archæology, Mysore, have been marked and selected for preservation in the Museum. Arrangements will be made in the near future for their acquisition and transport to Bangalore.

Sri N. R. Banerjee, M.A., Assistant Superintendent, Department of Archæology, Southern Circle, Madras, who was on a study tour, visited the Museum at Bangalore, for purposes of studying the collections of antiquities in the Archæological section, specially the megalithic pottery from Coorg. He was given all the facilities to study the exhibits as well as to take photographs of the same.

The Superintendent, Archæological Section, Indian Museum, Calcutta, desired to have plaster casts of certain Hoysala pieces of sculpture exhibited in this Museum, for displaying the replicas so prepared in the Archæological section of the Indian Museum. He deputed the modeller of the Archæological section of the Indian Museum for this purpose. The modeller was given the necessary facilities to take impressions in clay and prepare the replicas of some Hoysala sculptures, *i.e.*, Gajasuramardana, Surya and Brahma exhibited in the Government Museum, Bangalore. Arrangements were also made in this connection with the owners of the Patan Bhavan, Bangalore, to permit the modeller of the Indian Museum, Calcutta, to prepare a plaster cast of a Ganesha image lying in the compound of Patan Bhavan.

The Director of Archæology in Mysore, was kind enough to spare on loan a representative set of forty-three antiquities belonging to Chandravalli, Chitaldrug District, for display in the Archæological section of this institution.

The Government of Mysore were also pleased to permit the State Huzur Treasury, Bangalore, to send certain antiquities and exhibition medals, that were lodged there for safe custody, to the Government Museum, Bangalore, for display.

Industrial Art.—In order to improve this section by acquiring artistic metalware and ancient bronzes, etc., that are of no use to the temples either for worship or for processional purpose, the Curator-in-charge, visited Yelahanka, Bangalore Taluk and examined an old deteriorated temple car (Ratha), which contained some wooden art pieces. As these pieces of art were found worthy of preservation in the Museum, steps have been taken with the local authorities for acquiring them.

Restoration and Preservation.—As usual the periodical cleaning of the exhibits displayed in the various sections of the institution was attended to promptly. All the specimens preserved in rectified spirit have been cleaned, refitted into position and the jars were filled in with fresh spirit.

Educational Work.—The Systematic guide lectures to students from Primary Schools on History, Fauna, Flora and Industries of Mysore, are being delivered as usual on Saturday mornings. Usual explanatory talks to illiterate visitors formed an essential feature of the educational work of the institution. It may be pointed out in this connection that this aspect of Museum work can only be expanded with much advantage for the benefit of illiterate visitors, when special staff of guide lecturers, trained for the purpose, are appointed.

Though the Assistant Inspector of Education, City Range, Bangalore, who was requested to co-operate in the educational work of the institution, was not able to furnish the required information during the period under report, yet 6,745 students belonging to 135 schools and colleges, in and around Bangalore, accompanied by 174 teachers were shown round the Museum. Details are noted in Appendix 'D'.

Library.—The necessity for the expansion of the Museum Library for affording facilities for research is engaging attention for some time past and with this object in view, efforts are being made to augment the collection of books in the library. The principal additions to the library consists of annual reports and other publications of Museums, in and out side India, received as presentation or exchange. Apart from the periodicals and journals subscribed for, some books, which are useful for reference and study, relating to art, archæology, natural history, etc., were purchased during the period under report. A detailed list of books and periodicals acquired is furnished in Appendix 'B'.

Some important exhibits of Hoysala sculptures and sandalwood carvings displayed in the Museum have been illustrated in the annual report for the year 1947-48.

Building.—Annual repairs, white-washing, etc., connected with Museum building were attended to by the Public Works Department.

On account of the limited space in the present building, it has become not possible to expand the different sections of the institution until extra accommodation is provided. Proposals for the construction of a new building have already been submitted to Government and orders are awaited thereon.

Visitors.—The total number of visitors who visited the Museum during the period of nine months under report is 234,598 as against 494,437 in the previous year. The large crowds to the institution were, as usual, on 'Karaga' and other local festivals.

Staff.—The Cottage Industries Museum, Exhibition Buildings, Mysore, continued to be under the supervision of the Curator, Government Museum, Bangalore. Sri K. Narayana Iyengar, M.A., Curator, Government Museum, Bangalore, was transferred during January 1950 on an acting basis as Assistant to the Director of Archæology, Mysore. The senior acting Assistant Curator has been placed in charge of the duties of the Curator.

Government, while sanctioning the weightage only to the superior staff of the Museum in their existing old grade from 1st January 1947, were pleased to revise the scales of pay of one Assistant Curator on Rs. 75-5-100 to Rs. 60-5-90-6-150.

Stock Registers.—The general accessions register and registers of library and furniture have been written up-to-date.

Maintenance.—The budget grant of the institution for the period under report was Rs. 10,400 and the actual expenditure amounted to Rs. 9,993-12-0.

R. RAMAKRISHNA,
Director.

APPENDIX 'A'.

List of specimens acquired for the Mysore Government Museum, Bangalore, during the period ending 31st March 1950.

Sl. No.	Description	Remarks
1	Specimen of a snake (spirit specimen) ...	Subedar C. D. N Kakria, R.I.S.A. Bangalore.
